ABOUT US

Our goal is to deliver high quality that is integrated with cutting-edge methods created by our tech professionals. We support customization that meets your company's demands. We maximize the utilization of technology combined with human potential with the main objective of serving the world. Our experts and advisors carefully choose those solutions that support smart strategic policies and guarantee a long-term competitive edge. Web-based solution and application development, ERP solutions, digital transformation, cyber security, and AI automation is our primary area of expertise. We have a track record of beating impossible deadlines, and our mission is to produce top-notch work quickly. We use our sharp business judgment to come up with unique and ground-breaking solutions.

Our Mission

We prioritize customization that meets your company's demands. Serving the client is one of our company's main priorities. In this regard, we maximize the application of technology that harnesses human potential. Solutions that guarantee a sustained competitive edge in the market are hand-selected by our specialists and consultants.

Our Vision

ESCO-TECH aims to become an innovative software company that solves the issues of users, industry, and region with self-activeness and technology which connects “all devices, services, people.”

Our values

Deliver

We do what we say we are going to do.

Care

We take care of each other and foster a culture of inclusion and belonging.

Do the right thing

We act with integrity.

Collaborate

We work as a team - globally and locally.

Community

We believe in stewardship and building a sustainable company that supports our communities.

HARDWARE (NETWORKING, CCTV)

Many companies cannot hire an entire IT department, yet they need IT support and services they can rely on. Esco-tech is passionate about helping people and bring affordable solutions to small and medium businesses.

The cost of computers, servers, firewalls, have all drastically improved in quality while dropping in price. Now every company has the opportunity to truly leverage technology as it relates to their business. Regardless of the size of the company, each one needs the same things to operate smoothly: files, print, email, fax, phones, IT security, remote solutions. With years of experience integrating solutions that simplify and harmonize relationships between technology and your business, esco tech has led the way in providing innovative solutions that businesses can afford while improving productivity.

Hardware installation Services:

- 01 Computers
- 02 Servers
- 03 Computer Networks
- 04 CCTV
- 05 Access Control
- 06 VOIP
